

TOOLS	
PART NO.	DESCRIPTION
WE14019	Six way spoke wrench set (forged)
WE14018	Spoke wrench set fits .250 & 300 nipple sizes
WE14017	Spark plug spanner and spoke key (ideal for motocross)
WW14016	14MM spark plug ring spanner straight
WW14015	14MM spark plug spanner L shaped
WW62007	Tyre pressure gauge dial type
WE14009	Tyre pressure gauge pencil type
WE14005	Key fob Tyre depth gauge
WW62005	Lock wire twisting pliers 9"
WE14035	Circlip and snap ring pliers
WE14036	T bar allen key 10pc set metric
WE14037	Impact driver and 4 pc bit set
WE14038	Control cable lubricator
WE14000	Tyre levers 9 1/2" pack of ten
WW62006	Tyre lever 15" heavy duty with curved end
WE14001	Tyre lever 16" heavy duty straight
WW61124	Tube spanner for triumph 4 speed sprocket nut 1 5/8"
WW61125	Tube spanner for triumph 5 speed sprocket nut 1 7/8"
WW61103	Piston ring compressor 60-65MM
WW61104	Piston ring compressor 65-70MM
WW61105	Piston ring compressor 75-80MM
WW61045	Chain breaker for 415 to 530 standard chains
WW61046	Replacement tip for WW61045 chain breaker
WE14026	Heavy duty chain rivetting and splitting tool (ideal for o ring chains)
WE14028	Battery charger 6V/12V half amp charge rate for slow charging
WW29046	Plastic timing degree disc (for ignition and cam timing)
WW29024	TDC timing tool fits into 14mm spark plug thread
WW24014	Valve spring compressor G clamp type (ohv models)
WW61140	Triumph half time pinion extractor tool (splined type)
WW24008	Norton Commando clutch diaphragm compressor tool

SPANNER & SOCKET SETS	
WW61158	6 piece Whitworth combination spanner set 1/8"-3/16"-1/4"-5/16" 3/8"-7/16"
WW61159	8 piece Whitworth socket set 1/8"-3/16"-1/4"-5/16"-3/8"-7/16" 1/2"-9/16"
WW61160	6 piece Whitworth open ended spanner set 1/8x3/16 - 3/16x1/4 1/4x5/16 - 5/16x3/8 - 3/8x7/16 -7/16x1/2

---------	---	--	--

A complete range of lubricants dedicated to providing ultimate performance for every type of scooter. Whether you are a commuter or World Champion scooter racer, there is a Silkolene Scooter oil to suit you.

Scoot Sport 2

Electrosyntec Technology - Synthetic ester based low smoke 2-stroke engine oil for scooters and mopeds. Electro-syntec uses electrostatic forces to bond low friction molecules to stressed metal surfaces, releasing hidden power and ensuring long term performance retention. This advanced low smoke 2-stroke engine oil reduces engine wear, and maintains optimum power while providing outstanding resistance to ring sticking, plug fouling and pre-ignition. Compatible with all types of fuel.

1 litre **WWSK2005E**

Pro Scoot

Electrosyntec Technology - Full synthetic ester ultra low smoke 2-stroke engine oil for high performance and racing scooters Electro-syntec uses electrostatic forces to bond low friction molecules to stressed metal surfaces, releasing hidden power and ensuring long term performance retention. A clean burning ester formula 2-stroke engine oil. Reduces friction and wear and maintains optimum power. Compatible with all types of fuel.

1 litre **WWSK2008E**

Scoot 4 10W-40

Electrosyntec Technology - Synthetic ester based 4-stroke engine oil for scooters and mopeds. Electro-syntec uses electrostatic forces to bond low friction molecules to stressed metal surfaces, releasing hidden power and ensuring long term performance retention. Ideal for use in modern, high performance 4-stroke scooters. Excellent stay-in-grade performance with outstanding anti-corrosion and anti-wear characteristics.

1 litre **WWSK2011E**

A complete range of lubricants for the street motorcyclist from commuter to motorcycle tourer. If you rely on your machine for work or spend all your holidays on two wheels you need to be sure your bike is in perfect working order. Long distance touring and short journeys in heavy traffic can put a lot of strain on a motorcycle. Silkolene oils protect your bike from all these pressures and give you the confidence that you are getting the best performance there is.

Super 2 Injector

MC-Syn Technology - Molecularly Converted semi-synthetic 2-stroke engine oil for motorcycles. Silkolene Super 2 Injector is a clean burning formula which resists carbon build-up, ring sticking, plug fouling and pre-ignition. Reduces wear and ensures long reliable engine life. Compatible with all types of fuel.

1 litre **WWSK0003**

Super 4 10W-40 and 20W-50

MC-Syn Technology - Molecularly Converted semi-synthetic 4-stroke engine oil for all modern motorcycles. Silkolene Super 4 is better than conventional mineral oils. It protects the engine and transmission with advanced additive chemistry from start to full power.

10W-40, 1 litre	WWSK0009E
10W-40, 4 litre	WWSK0010E
20W-50, 1 litre	WWSK0014E
20W-50, 4 litre	WWSK0015E

Comp 2 Injector

Electrosyntec Technology - Synthetic ester based low smoke 2-stroke engine oil for high performance motorcycles. Electrosyntec uses electrostatic forces to bond low friction molecules to stressed metal surfaces, releasing hidden power and ensuring long term performance retention. This advanced low smoke lubricant reduces engine wear and provides outstanding reliability and combats piston seizure ring sticking, plug fouling and carbon build-up. Low ash formula minimises pre-ignition and port fouling problems. Compatible with all types of fuel.

1 litre	WWSK0019E
---------	-----------

Comp 4 10W-40, 15W-50 and 20W-50

Electrosyntec Technology - Synthetic ester based 4-stroke engine oils for all high performance motorcycles. Electrosyntec uses electrostatic forces to bond low friction molecules to stressed metal surfaces, releasing hidden power and ensuring long term performance retention. The exceptional stay-in-grade formulation protects engines and transmissions. Ester synthetics combat wear and friction on all critical load surfaces at high temperatures and during cold starts.

10W-40, 1 litre	WWSK0023E
10W-40, 4 litre	WWSK0024E
20W-50, 1 litre	WWSK0033E
20W-50, 4 litre	WWSK0034E

The race range of lubricants has been carefully designed for the professional racer and those putting high performance superbikes and race replicas through their paces in sport and on the street. Silkolene Race oils are the result of research, working closely with motorcycle manufacturers and race teams, bringing you a range of racing oils with proven track performance. Because we know that the factory race bike of today is the production street bike of tomorrow, Silkolene's lubrication engineers continually strive to match the demand necessary for success on the track, before passing the benefits on to the motorcyclist in the street.

Comp 2 Plus

Electrosyntec Technology - Full synthetic ester ultra low smoke 2-stroke injector engine oil for high performance motorcycles. Electrosyntec uses electrostatic forces to bond low friction molecules to stressed metal surfaces, releasing hidden power and ensuring long term performance retention. Reduces friction and wear under high stress use. This clean burning lubricant ensures a high degree of internal engine cleanliness for optimum performance retention.

1 litre	WWSK1000E
---------	-----------

Pro 4 10W-40 and 15W-50

Electrosyntec Technology - Full synthetic ester 4-stroke engine oil for all high performance motorcycles. Electrosyntec uses electrostatic forces to bond low friction molecules to stressed metal surfaces, releasing hidden power and ensuring long term performance retention and exceptional stay-in-grade characteristics even under race conditions. Ideal for all highly tuned, high output engine transmission units. Race proven to provide exceptional anti-wear and anti-friction performance under all extremes of temperature.

1 litre	WWSK1005E
4 litre	WWSK1006E

Castorene R40S and R50S

Castor and synthetic ester blend for specialist racing applications. A unique blend of castor and synthetic esters, improving the already excellent lubricating qualities of castor while minimising the risk of thickening and lacquer formation in high temperature applications. Not soluble in methanol based fuels.

DO NOT MIX WITH CONVENTIONAL OILS.

Castorene R40S, 1 litre	WWSK1019
Castorene R50S Castor & Ester blend, 1 litre	WWSK1020
Pro KR2 Synthetic & Castor blend 2 stroke kart racing oil, 1 litre	WWSK1018

As a result of years of testing with world champions and factory teams, Silkolene has a wider range of high performance products designed specifically for the off-road rider - a range to meet the needs of all dirt bike riders from World Motocross winners to the weekend riders in the forest. With its policy of continuous development to meet the ever changing requirements of modern machines you can be sure that Silkolene oils will always be at the leading edge. Our Off-Road range gives a fair advantage!

Super 2 SX

Synthetic fortified 2-stroke engine oil for off road motorcycles. A clean burning formula which resists carbon build-up, ring sticking, plug fouling and pre-ignition. Reduces wear and ensures long reliable engine life. Compatible with all types of fuel.

Super 2 SX semi synthetic 2 stroke, 1 litre	WWSK3000
---	----------

Comp 2 Plus SX

Full ester synthetic ultra low smoke 2-stroke engine oil for competition off-road motorcycles. Reduces friction and wear under high stress use. This very low smoke, clean burning lubricant ensures a high degree of internal engine cleanliness for optimum performance retention. Suitable for injector and premix.

Comp 2 plus SX pre mix fully synthetic 2 stroke, 1 litre	WWSK3004
--	----------

Comp 4 SX 10W-40

Semi-synthetic ester technology 4-stroke engine oil for all high performance off-road motorcycles. The outstanding stay-in-grade formulation protects motorcycle transmissions. Ester synthetic technology combats wear and friction on all critical load surfaces at high temperatures and during cold starts.

Comp 4 SX 10W-40 semi synthetic 4 stroke engine oil, 1 litre	WWSK3006
Comp 4 SX 10W-40 semi synthetic 4 stroke engine oil, 4 litre	WWSK3007

Pro 4 SX 15W-50

Ester synthetic racing 4-stroke engine oil for all high performance off-road motorcycles. Ideal for all highly tuned, high output engine/transmission units. Race proven to provide exceptional anti-wear and anti-friction performance under all extremes of temperature ensuring maximum performance retention.

Pro 4 SX 15W-50 fully synthetic 4 stroke engine oil, 1 litre	WWSK3007
Pro 4 SX 15W-50 fully synthetic 4 stroke engine oil, 4 litre	WWSK3013

Classic

A full range of specialty products designed to meet the needs of vintage and Classic motorcycles. Blended from modern base stocks and additives to internationally recognised specifications.

Donington 40

'Straight' non-detergent engine oil for veteran machinery.

Donington SAE 40W additive free mono grade engine oil, 5 litre	WWSK4000
--	-----------------

Chatsworth 40

Classic / Vintage medium detergent monograde engine oil with anti-wear properties.

Chatsworth SAE 40W detergent oil, 1 litre	WWSK4002
Chatsworth SAE 40W detergent oil, 5 litre	WWSK4001

Chatsworth 30

Classic / Vintage medium detergent monograde engine oil with anti-wear properties.

Chatsworth SAE 30W medium detergent oil, 1 litre	WWSK4004
Chatsworth SAE 30W medium detergent oil, 5 litre	WWSK4003

Osmaston 50

Vintage non detergent engine and gearbox oil. SAE 50 (Crankcase) SAE 90 (Gearbox)

Osmaston SAE 50W non detergent oil, 5 litre	WWSK4007
---	-----------------

Hardwick 50

Classic / Vintage monograde oil with good detergency and a high level of anti-wear additives.

Hardwick SAE 50W detergent oil, 5 litre	WWSK4008
---	-----------------

GEAR OILS

Light and Medium motorcycle gear oil

Advanced specification gear oils for use in 2-stroke motorcycles and other separate gear box machines. Reduce drag, combat clutch slip and protect highly stressed components. Suitable for wet or dry clutch transmissions.

Light gear oil 75-80W, 1 litre	WWSK5000
Medium gear oil 85-90W, 1 litre	WWSK5003

Comp Gear - Semi-synthetic ester racing gear oil

A race-proven gear oil for off-road competition motorcycles and road and race machines with separate gear lubrication. Effective over a wide temperature range, it gives smooth gear changes, positive clutch action and reduced wear.

Comp gear oil semi synthetic racing gear oil, 1 litre	WWSK5005
---	-----------------

GEAR OILS

Pro SRG 75 - 100% ester synthetic racing gear oil

The ultimate gear oil for racing gear boxes where gear trains are subjected to very high power outputs and high shock loadings. Exceptional anti-seize and low friction properties extend component life and reduce power losses. Superior thermal stability maintains consistently high performance from start to chequered flag.

Pro SRG 75 synthetic racing gear oil, 1 litre	WWSK5007
---	----------

Scooter Gear Oil

80W-90 gear oil for scooters and mopeds, 125ml	WWSK2012
--	----------

BOA 80W-90

High performance hypoid gear oil. Recommended for motorcycle shaft drives / final drives. API GL5

BOA 80-90W gear oil EP, 500ml	WWSK5009
-------------------------------	----------

Rhino 140

Heavy duty, bronze compatible gear oil for 'crash' boxes and worm drive transmissions

Rhino SAE140W heavy gear oil, 5 litre	WWSK4009
---------------------------------------	----------

FORK OILS

Advanced formula motorcycle suspension fluids available in 5W, 10W, 15W, 20W & 30. All grades can be mixed to suit specialist requirements.

Light fork oil SAE 5W, 1 litre	WWSK5010
--------------------------------	----------

Medium fork oil SAE 10W, 1 litre	WWSK5011
----------------------------------	----------

Intermediate fork oil SAE 15W, 1 litre	WWSK5012
--	----------

Heavy fork oil SAE 20W, 1 litre	WWSK5013
---------------------------------	----------

Extra heavy fork oil SAE 30W, 1 litre	WWSK5014
---------------------------------------	----------

CHAIN LUBES

Chain Lube

Semi-synthetic motorcycle chain lubricant. Penetrates to inner rollers and pins and resists high speed fling off. Chain and sprocket life benefit from outstanding anti-wear and anti-corrosion properties.

Chain lube spray (aerosol), 600ml	WWSK5027
-----------------------------------	----------

Chain lube spray (aerosol), 400ml	WWSK5028
-----------------------------------	----------

Titanium Chain Gel

Super light Titanium Chain Gel protects your chain, leaving it with a bright white, as new, 'ex-works' finish. The hyper strong PTFE boosted formula resists high speed fling-off.

Titanium chain gel spray (aerosol), 400ml	WWSK5029
---	----------

MAINTAIN AEROSOLS

Carb Cleaner Carburettor and fuel injection system cleaner, 400ml spray	WWSK5033
Brake Cleaner Environmentally safe brake component cleaner, 400ml spray	WWSK5032
Contact Cleaner Powerful precision parts cleaner, 400ml spray	WWSK5034
Engine Cleaner Fast acting, heavy duty degreaser, 400ml spray	WWSK5031
All-In-One Supremely effective multi-purpose maintenance spray, 400ml spray	WWSK5038
Pro Prep Water repellent hard surface conditioner, 400ml spray	WWSK5037
Silkopen Graphited penetrating spray, 400ml spray	WWSK5036

FOAM FILTER TREATMENT

Foam Filter Cleaner

Water rinsable solvent cleaner for foam air filters, 4 litre	WWSK5023
--	-----------------

Foam Filter Oil

Super-tacky, water repellent formula for foam air filters. Helps combat the ingress of sand, dust and repels water without affecting engine breathing.

500ml	WWSK5025
-------	-----------------

OTHER SPECIALITIES

Pro Cool – Advanced all season non toxic engine coolant

This road proven coolant gives winter protection down to –34C and improves heat transfer making it an ideal summer coolant.

1 litre	WWSK5015
---------	-----------------

Pro RG2 - Synthetic Racing Grease

A super high melting point lithium complex synthetic racing grease for competition and road use.

Pro RG2 Synthetic Racing Grease, 177g	WWSK5048
---------------------------------------	-----------------

Pro Boost - Lead free octane booster

Specifically designed to combat pre-ignition and improve acceleration, especially in tuned or re-mapped engines. Improves throttle response and facilitates cold starting. Pro Boost has a "keep clean effect" in both carburettor and injection systems.

1 litre	WWSK5022
---------	-----------------

Universal brake & clutch fluid, 250 ml

WWSK5020

Silkolene Fuchs-Off

Fast & effective, spray-on, wash-off cleaner – specially formulated for dirt and road bikes.
Kind to aluminium.

Fuchs-Off, 1 litre	WWSK5039
Fuchs-Off, 5 litre	WWSK5040

LUBRICANTS & SEALANTS

PART NO.	DESCRIPTION
WWYGP237	Silicone instant gasket, box of 12 tubes
WW73201	Samsonol blue gasket sealant, 100gm tube
WWYGP246	Black high temperature cylinder black, 125ml pot
WWYGP400	Solvol Autosol chrome cleaner, box of 12 tubes
WW73200	Tank Seal, 260ml. Petrol resistant internal coating for rusty or pitted fuel tanks. Highly flexible formula designed to resist vibration cracking.
